## WHAT IS STUDENT LOAN REFINANCING?

## Refinancing is the process of taking out a single new loan to pay off

 your old ones.- Federal and private student loans may be included
- May have a new lender/servicer
- New terms - lower interest rate and shorter term
- Borrower gets to choose
- Calculated savings over the life of your loan

## Federal Consolidation

Refinancing is different than federal consolidation programs, which simply combine existing federal loans into one monthly payment. Your total payment amount and total interest will likely remain the same when consolidating.
